

PMR Warning Validations Overview

09/23/2026 12:11 pm EDT

WARNING validations identify data that may affect PMR reporting and requires review. Select the applicable validation rule below to determine what information should be reviewed and whether a correction is needed.

Warning validations do not have to be cleared to review the PMR extract reports, but the information should be verified and corrected if not valid.

Navigation: Menu > Reporting > Data Validation > Data Validation Report > M# PMR Validations WARNING
