Review RP Summer School Enrollment Detail

11/06/2026 7:54 am EST

Summary

Use **RPD03 - Summer School Enrollment** lists students with at least 1 actual summer school enrollment record for the reporting year. The report can also show related Summer Education program records for those students.

A student with only a Summer Education program record does not appear in RPD03. To review summer outcomes when there is no summer school enrollment record, use Review RP Summer School Outcome Detail (https://nc-sandbox.knowledgeowl.com/home/review-rp-summer-school-outcome-detail-rpd04).

Information

What to Review

Compare the summer information in the report with the student's summer records. Review the outcomes and dates, and confirm that the information used for the final progression result matches the available records.

Report field	What it shows
ReportEndYear	The end year of the reporting school year. For example, 2026 represents 2025-26.
schoolCode, schoolName	The school associated with the student's reporting year record.
studentUID, lastName, and firstName	Information used to identify the student.
stateGrade	The student's grade at the reporting school during the reporting year.
summerRecordCount	Number of qualifying summer evidence records, including Enrollment and Summer Education program records.
summerEnrollmentCount	Number of qualifying summer school Enrollment records.

Report field	What it shows
summerProgramCount	Number of Summer Education program records
summerStartDate	Earliest start date among the student's qualifying summer activity.
summerEndDate	Latest end date among the student's qualifying summer activity.
summerOutcome	The latest resolved summer decision, when one is available.
summerOutcomeSource	The record type used for the summer outcome: Summer Enrollment, Summer Program, or both.
eoyOutcome	The end of year (EOY) administrative outcome: Promoted, Retained, or Reclassified.
finalProgressOutcome	The final grade level progression outcome after available evidence is considered.
reportingOutcome	The classification used for PMR reporting, when the student is eligible.
outcomeSource	The type of information used to determine the final outcome, such as EOY, Summer School, Summer No Show , or current year enrollment.
outcomeDecisionRule	The rule used to determine the final outcome.
outcomeReviewReason	One or more reasons that may need review. Multiple reasons are separated by semicolons.

The source records may show these decisions:

Source record	Value	RP outcome
Enrollment end action	P	Promoted
Enrollment end action	R	Retained
Enrollment end action	D	Reclassified
Summer Education program exit status	SPR	Promoted
Summer Education program exit status	SRN	Retained
Summer Education program exit status	SGR	Graduated

When multiple summer decisions are available, the report uses the latest dated decision. If the latest decisions have the same date and disagree, summerOutcome displays Conflict. Compare the decision and date on each source record. Correct a record only when its information is inaccurate.

If the source records accurately reflect the student's records but the outcomes conflict, do not change a record only to clear the conflict. conflict), and Retention/Promotion Corrections (https://nc-sandbox.knowledgeowl.com/home/retentionpromotion-corrections) for additional guidance.

Recommended Actions

- Confirm the student, reporting year school, and grade.
- Compare summerEnrollmentCount, summerProgramCount, summerStartDate, and summerEndDate with the student's summer Enrollment and Summer Education program records. These fields summarize qualifying summer activity from both record types.
- Compare summerOutcome and summerOutcomeSource with relevant record's decision field:
  - For summer Enrollment, review the **End Action**.
  - For a Summer Education program record, review the **Exit Status**.
- If multiple decisions are listed, use the latest dated decision. If decisions on the latest date disagree, the report shows Conflict.
- Compare the summer outcome with eoyOutcome and finalProgressOutcome. Use outcomeSource, outcomeDecisionRule, and outcomeReviewReason to understand how the final result was determined.
- If the report agrees with the source records, no correction is needed. Correct a source record only when it does not accurately reflect the student's record or decision.

If the Enrollment End Action is incorrect

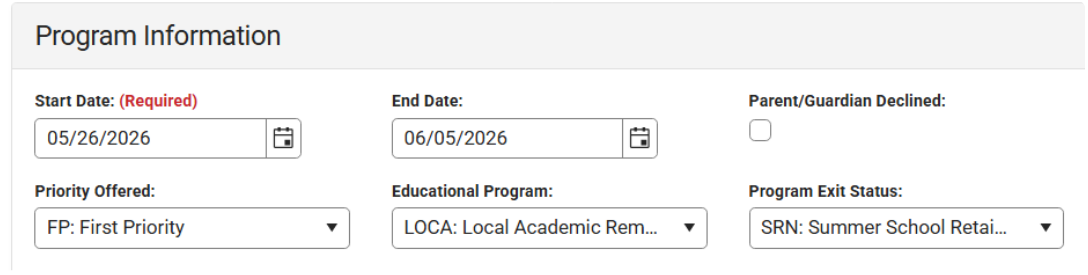

- Open *Student Information > General > Enrollments*.
- Open the student's record and locate the summer enrollment record that matches the dates and programs shown in the report.
- Confirm that the record is the correct summer enrollment.
- If the **End Action** does not accurately reflect the student's record, select the correct value.
- Select **Save**.

Compare the Enrollment End Action with the student's verified summer school outcome. Update the End Action only when it is inaccurate.

If the Summer Education program Exit Status is Incorrect

- Open *Student Information > State Programs > Summer Education*.
- Open Summer Education program that matches the dates shown in the report.
- Confirm that the program record is the correct one.
- If the **Exit Status** does not accurately reflect the student's record, select the correct value.
- Select **Save**.

Compare the program Exit Status with the student's verified summer outcome. Update the Exit Status only when it is inaccurate.

If **summerOutcome** is blank, the report may include summer activity without a recognized outcome. Review the End Action on the Enrollment and the Exit Status on the Summer Education program. A blank outcome alone does not mean a record is incorrect.

Verify the Review or Correction

After reviewing the record or correcting inaccurate source information:

- Allow the RP data to refresh.
- Run the RP data validations again.
- Review RPD03 to confirm that the summer information and outcomes reflect the available records.
